SVLFG

„Vaccination protects you and others!“: Films for seasonal workers

The Social Insurance for Agriculture, Forestry and Horticulture (SVLFG) offers nine films in nine different languages on the subject of „Vaccination protects you and others!“. They are published on the SVLFG YouTube channel.

The new explanatory films are intended to motivate seasonal workers to get vaccinated against Corona in their home country. In addition, the SVLFG presents how seasonal workers can protect themselves against Corona with a vaccination and how a vaccination works.

The nine films can be found at www.svlfg.de/youtube-digital on the SVLFG YouTube channel in the playlist "Erklärfilm: Impfen schützt dich und andere!" (english: „Film: vaccinating protects you and others!"). The content is provided in German, English, Romanian, Polish and Bulgarian, as well as Ukrainian, Hungarian, Georgian and Spanish.

With the new films, SVLFG helps seasonal workers, as well as business owners, stay healthy and safe during the Corona pandemic. For more information on Corona, prevention measures, answers to frequently asked questions, and many other topics, seasonal workers and employers can visit the Seasonal Work web app at www.agriwork-germany.de.
